

CHANMINEA ROEUN

Web Application Developer

About Me

As a **Web Application Developer** with over two years of full stack experience at **Raksa Solution Co. Ltd.**, I have successfully worked on the development of **POS system** and other related projects. Beyond my technical proficiency, I offer high responsibility, honesty, hard working and effective communication. I intend to apply my skills to enhance your existing development workflows, resolve current difficulties, and become a valuable member of your team while fostering my own professional development.
